

## **Wine tasting in Rioja and Ribera del Duero**

**Asher Tishler**

The winery tour in Rioja and Ribera del Duero during October 2017 was part of a visit to Spain by Nurit and Asher Tishler, Ronit and Yossi Gershenman, Tali and Benzi Weiner, Claudia Maayan-Nevo and Shlomo Yonas, and Yona and Aldo Bar-Nes. We visited six wineries in Rioja and six wineries in Ribera del Duero and tasted the wineries' current releases and some older ones.

The highest quality and mature wines are often unavailable in the wineries and should be purchased in professional wine stores or in other professional outlets (local importers, internet stores, auctions, etc.), since most of the high quality wineries' production is pre-sold (sometimes several years) in advance. Wines from the last release and, sometimes, from the last 2-3 releases may be available in some, but not all, wineries.

There are numerous hotels, B&Bs, quality restaurants and wine stores in Rioja and Ribera del Duero. Booking rooms well in advance, particularly during holidays and annual wine events, is highly recommended. We stayed in Santo Domingo (Rioja) and Valladolid (Ribera del Duero). Both towns are close to some of the regions' most famous wineries and offer many interesting attractions (culture, scenery, archeology, food, and much more).

This winery trip was planned several months in advance, and was focused on high to very high quality wineries. Thus, no wonder that we ranked many of the wines that we tasted as 'very good' or even 'excellent'. All of the high quality wines that we tasted will age and continue to develop, many of them for 5-30 years.

Finally, there are numerous sources of information on Rioja's and Ribera del Duero's wines, wineries, history, climate and geography. Wikipedia and the references therein is a good place to start.

We thank Amit Barzelai, Yagil Barel, Daniel Pliskine and Alex Fuertes Fenech for information and many very helpful suggestions and recommendations about the Rioja and Ribera del Duero regions, wineries and wines.
